Move data to a well-structured SharePoint

An excellent professional reputation doesn't come without paying attention to every detail. Find out how **McDaniel & Associates Consultants Ltd** effectively used Vyapin's [Dokit](#) to see the big picture and drill into the details during the migration to a well-structured SharePoint environment.

[Find out how](#)

Find Time is a Time Saver!

The task of setting up a meeting can be frustrating and time consuming. Not anymore with the latest from Microsoft Garage projects.

Find Time is the easiest way for individuals across different companies to find a time to meet.

Download the [free office 365 app](#) and start saving time today!

SharePoint 2016

Data Loss Prevention (DLP) is one of the most anticipated features of SharePoint 2016.

Find out how it works and protects your sensitive data on premises, in the cloud or both in this [channel 9 webinar](#).
