

# Office 365 Migration Planner

## Release Notes

Last Updated: Oct 2018

---

### Version 1.1

- Added a few new reports like Mail flow rules, Retention policies, Malware filters under Exchange Settings category.
- Added a new category called Group Policy Analysis to show the list of group policies and its permissions.

### Version 1.0

- First version of Office 365 Migration planning module. It provides a complete checklist / inventory of the current on premises infrastructure to assist the users with their planning for Office 365 migration.
